## Company Profile :

AL LARAA METAL COATING LLC located in Ajman Industrial Area 1 is a part of Al Ameera Group of company, fabrication of custom made steel and stainless steel items.

Go through our website for more details [www.ameeragroupuae.com](http://www.ameeragroupuae.com)

Our factory is Easy Accessible to Trucks to offload and load the material. We have total work space of 5000 SQFT Al laraa Metal coating LLC started in 2021 with its own custom built oven and powder coating setup, painting setup.

## Benefits of Powder Coating

1. Powder Coating has a durable, thick & finish than liquid coatings and is typically applied in one application.
2. Powder Coating is resistant to scratches, cracking, peeling, UV rays, and rust.
3. Powder Coating finishes are easier and faster to apply than liquid coatings
4. Powder Coating comes in many different colors and textures
5. Powder Coating is more consistent than liquid coatings as colors and textures are designed into the powder composition and not custom mixed with potential variations by adding solvents, catalysts, additional required additives, etc. The cross-linking bond evenly distributes the finish horizontally and vertically reducing runs and application errors.

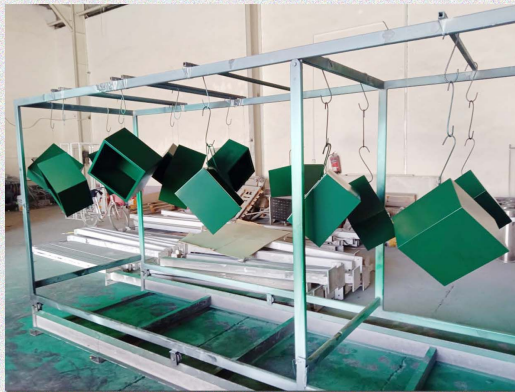

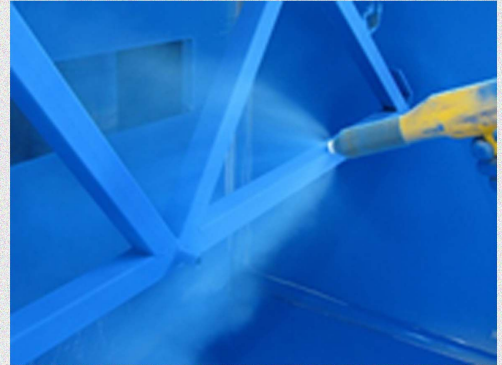

## Powder coating :

Powder coating can be done on Aluminum, GI, Mild steel, stainless steel, and other Auto parts

Architectural and Structural Metal Works like Railing, Light Post, Grating, steel casting, Aluminum profiles, Cladding sheets, Ironmongery, Automobile parts, steel cabinets, Fencing, Canopy, Mesh & Gates, Light Parking Poles and Signages are mostly powdercoated.

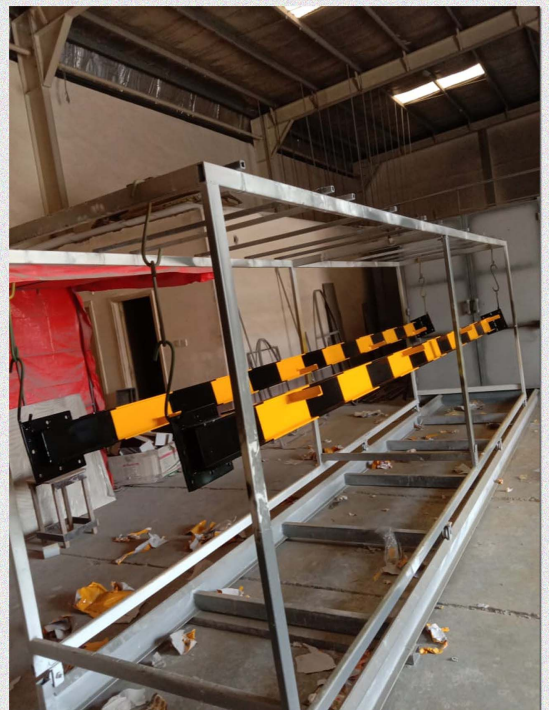

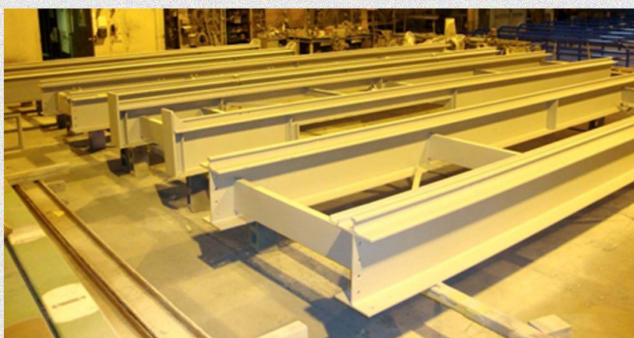

Our powder coating batch oven size 6.5mtr long x 1.8mtr wide x 2.2mtr height. Which could accommodate various sizes

We use Jotun, Axalta, Akzonobel, National and Alwan powders.

## Painting :

Apart from Powder coating, we do painting of steel, and wood as well. We do protective coating on Metals to highest standards. we use Jotun, Akzonobel and national products for painting.

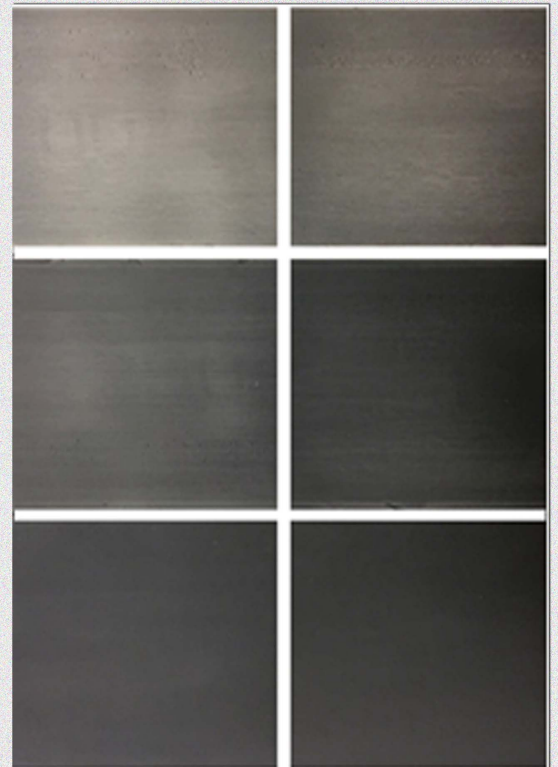

### Decorative finishes on steel and wood

Decorative finishes enhance the appearance of a component with their luster, texture, and color. Some decorative finishing processes with primer, midcoat Top coat and lacquer coating, and vibratory finishing.

### Blackened Steel Finishes

Blackened steel is otherwise called as black patina finish. is the process by which the surface of a metal part is coloured black whether by chemical reactions or by painting/waxing, at al laraa wedo this painting, the darkness of the metal can be increased or decreased as required and specified by the client.

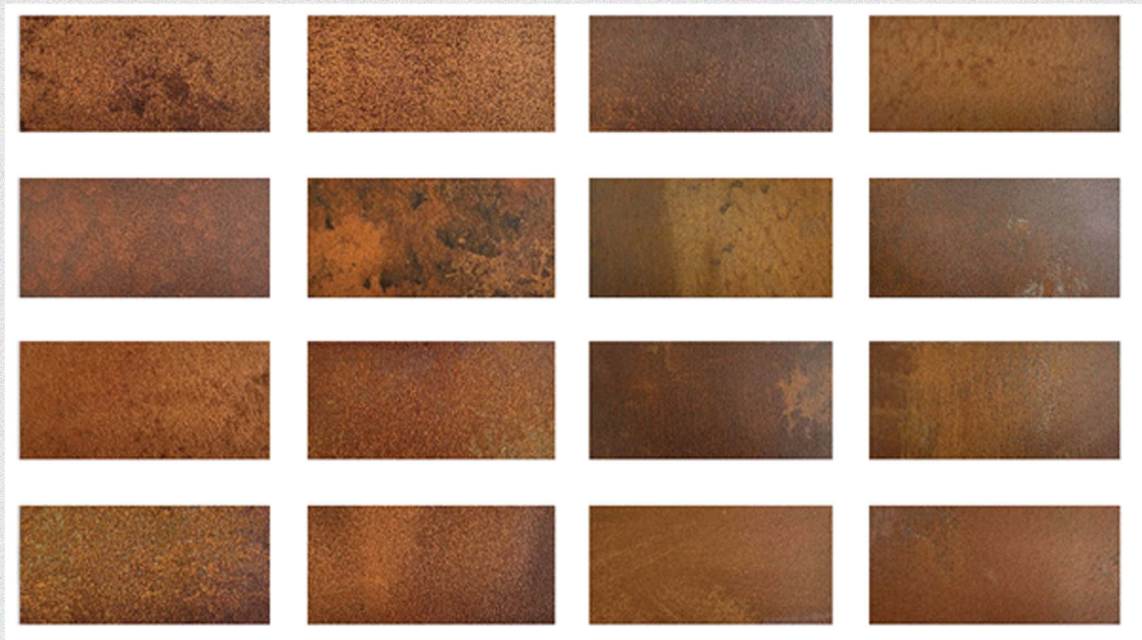

### Rustic finishes

Combining the traditional art of patinasation with modern day paint technology we will create the distinctive and timeless look of bronze and copper patina or the weathered appearance of rusted iron on any paintable surface.

Architectural ornaments, or decorative elements such as gates, Sculptures, Water features, garden pieces, props, etc.
